Though the classification of something considered musical sound or noise is up to the listener, it is more common that older people will consider more sounds to be "noise." Human hearing deteriorates over the course of a lifetime, and extremely high and low frequencies are lost first. This is why ...

Have you ever woken up after a clear summer night to find the grass is wet, even though you know it didn't rain overnight? The moisture on the grass is called dew, which forms when water in the form of a gas, which scientists call water vapor, comes in contact with cool surfaces, like grass or the glass on a car parked outside. The term for the amount of water vapor in the air is called humidity.

Sound is a very important part of our life.. We wake up in the morning by hearing alarms, or the chirping of birds.. Sound helps us to communicate with another person.. We talk and express ourselves by using sound.. We hear and listen to others with the help of sound.. Let's discuss some sounds in our daily life. A dog's bark lets us know that someone is coming.. A fire alarm warns us of a fire.
