

Ducati Monster 696 Check Engine

The check engine light came on for a min or so and go off. This happens several times on the trip but only on highway (40mph+). Once I'm in town at slower speed, no light comes up.

Check Engine Light - 2009 M696 - Ducati Monster Forum

I have a 09 Monster 696 with Termi slip ons, ECU and High Flow air filter... When riding at highway speeds 55-65mph and holding the throttle between 3500rpm and 4500rpm the check engine light comes on the engine runs kind of rough and it throws the "lambda" sensor codes... as soon as i move the RPMs above 5000 or belive 3000 the check engine light shuts off.

Monster 696 Check Engine Light (Lambda Sensor) - Ducati ...

Before I took my bike in for the 600 mile check I experienced a "flash" of the check engine light. When I got home I turned the bike off followed by turning the key on to enter the ERROR page. Nothing appeared. I called the shop to see what I should do and they said that they would look at it when I brought it in in a few days.
